**About *Biography & Genealogy Master Index (BGMI)***

Millions of Americans have been profiled in collective biography volumes such as *Who's Who in America* and *Women of Science*. The *Biography and Genealogy Master Index* was begun in the 1970s to index these names to aid researchers. The text has been updated periodically since the first edition appeared in 1980, most recently in 2008. The index, compiled by Mirana C. Herbert and Barbara McNeil, concentrates heavily on the nineteenth and twentieth centuries. In addition to providing the individual's name, birth, and death dates (where available), the source document is included. Sources for this index vary from *Who's Who of American Women* and *National Cyclopedia* to *American Biography* to *Directory of American Scholars* and *American Black Writers*. This database is an essential tool for locating persons who appeared in a "Who's Who" publication in the nineteenth and early twentieth centuries.

**Where to go from here:**

Each entry in the BGMI lists the biographical works which mention the individual in question. Researchers may obtain additional information by consulting these reference works (from which the BGMI index was created). Consult your local academic or research library for more information.

Use the "Principal Officers and Directors Index" in the Cross-Reference volume to locate biographies. The "Principal Officers and Directors Index" often alphabetizes by titles of address, such as Dr., Mrs., and Baron. Names with prefixes, such as Mc, De, and De La, may sometimes be located in more than one place in the index. (Dun&B 1990)
